Grumpy Joe's Folding Stages - Rostra

Rostra staging is ideal for marquee and rental companies and offers affordable flexible staging options for large areas. Can also be used outdoors directly onto grass. Staging can easily be transported and installed by one person. Our units simply unfold to form the rigid frame that supports the one piece 8ft x 4ft x 18mm exterior plywood tops.

Units simply push together to form the size of stage or catwalk needed. Cable ties can be used to fix frames together if required

Staging units can also be stacked to increase height using locating pegs (sold separately).

Each top has six locating blocks underneath that fit inside the frame to lock the frame and hold the stage top securely in place.
